Second partial Exam in Foundations of web design
06.06.2021

Task:

Write the CSS style rules into the style.css file in order to create the website shown at the last page. The CSS file is already linked with the html file. In the images directory you'll find the needed image files. You are only allowed to change the style.css file in the css directory. The other files and directories must not be changed. The hierarchy of the project is given on the Image (right). Write the rest of the CSS styles to achieve the visuals given at the image below. You can find a screenshot the website in the file preview.png.

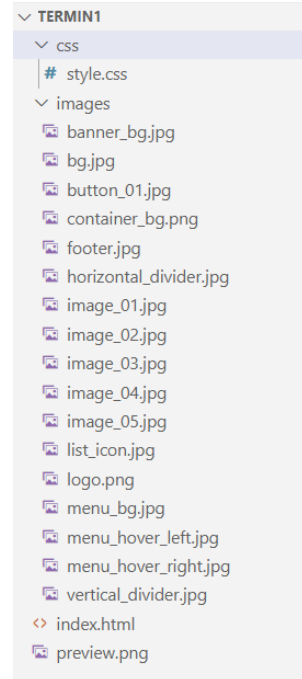

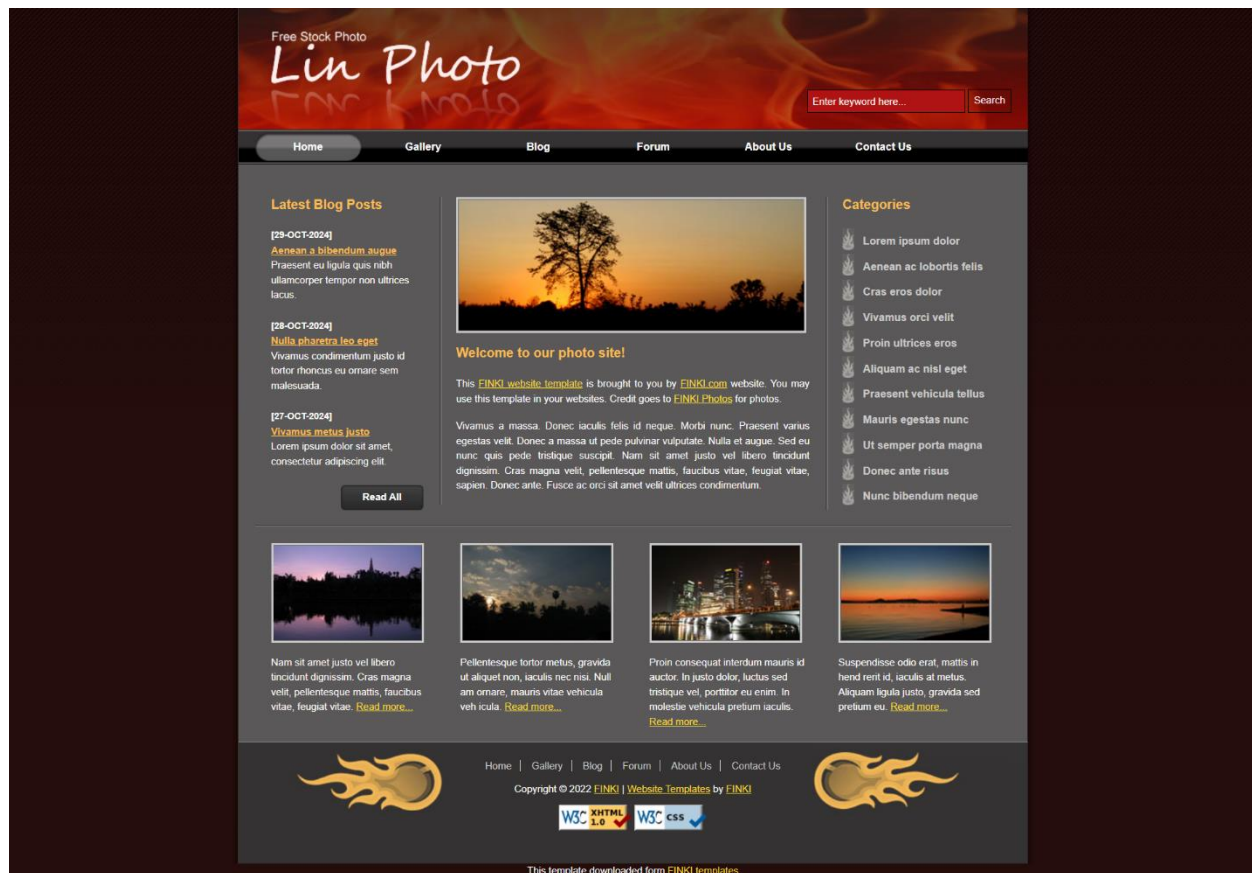

Image 1: File and directory Hierarchy

Link appearance

- standard (left)
- hover (right)

On hover, the list items should be colored as shown on the right image, and the menu items should also be colored.

Good luck !
